

this famous trial opened with Judge Mann being called to the witness stand by the defense. The attorneys for the defense tried to show by this witness that Fellow Workers Thompson and Gatewood were the only ones tried for violating the second street speaking ordinance, and that these two men were both discharged and the ordinance declared unconstitutional. (It may be remarked in passing that there were two street speak ing ordinances in Spokane, the first prohibiting all parties from holding street meetings, and the second repealed the first and permitted "regular religious organizations" to hold meetings on the streets. This second ordinance was declared unconstitutional by Judge Mann, in his famous decision/in the Thompson case on November 2nd, in which he held that the first prohibitive ordinance came back into effect again. The second ordinance declared unconstitutional first by Judge Mann of the police court and later by Judge Webster of the Superior court is the only ordinance in evidence as the first was ruled out by Kennan.)

They also offered to produce the records of every court in Spokane County to show that there had never been a man tried for violating the first ordinance after Judge Mann had declared the second one unconstitutional, but that men arrested for speaking on the street were charged with disorderly conduct.

Mr. Pugh strenuously objected to this as being immaterial, stating that it was unnecessary for the state to prove that a single arrest had been made, let alone a conviction secured, as the commission of an overt act is not essential to a conspiracy. To prove that the ordinance is on the books, and that the defendants conspired to break it is sufficient. Whether or not the ordinance had been declared unconstitutional later on did not enter into the merits of the case. Judge Kennan sustained the objection, and Judge Mann was excused from the witness stand.

They have tre spassed the borders of the neighboring State, Idaho, in their attempt to down the earnest aspira-tions of the workers in the fight for the life of the organization. They have caused the arrest of Fred W. Heselwood, a national organizer of the I. W. W.

American courts are capitalistic in their nature.

Prosecutor Pugh then asked him what he meant by insinuating that the courts are corrupt and was met by the startling reply: "I mean it in the same sense that Lincoln Steffens, David Graham Phillips, Judge Lindsay and numerous others mean it when they say that the courts in certain sections of the country are rot-ten from start to finish."

The courtroom almost broke into cheers at this point, and cries of "good" came from various parts of the room. The attorneys for the defense entered a most vigorous objection to the manifest unfairness of the court in allowing Mr. Pugh to go into the meaning of various passages in Shippey's articles after they had been forbidden to do so but a half hour previous, and Judge Kennan reversed his previous decision and promised the defense the same privileges as the prosecution. The line of questioning unearthed by Mr. Pugh was so calculated to prejudice the middle class "law and order" loving jury against the I. W. W. that it would have been wrong to stop it, so Mr. Pugh was allowed to bring out Shippey's revolutionary ideas in full. Adjournment found Shippey still on the stand.

THE HOBO'S VINDICATION.

The cry is raised by the eminently respect-able that the I. W. W. is made up largely of hoboes. To refute the statement would be not only to lie, but to acknowledge a cowardly spirit of shama for that for which we should be become

be honored. In th first place, what is a hobo? A recognised epcyclopedia says: "A laborer without a fixed location." Well and good; let us accept the definition. A hobo I am, and such I have been for more than ten years. When a very young man, im-patience of social restraint, a desire to travel and capecially a preference for an outdoor life, led me to quit my respectable and, of course, extremely profitable profession of rural peda-gogy and turn wobo.

The heroic young men who have paten the prisoners' bitter bread in the Spokane bastile are hoboes, almost every one; unsung hoboes, who, when history shall occasionally tell the truth, will no longer be unsuig, but, though their names be forgotten, yet in tha aggregate will they be remembered as homeless wander-ers who-nobly and manfully stood the test of the "times that try men's souls." if the farmers are the backbone of this na-tion, they can only claim to be part of it.

They may be the dorsal vertebrae, but the hobors, the wayfaring laborers, who have not where to lay their heads, except on bundles of old shirts in cold tents of or in the open air, who imagine that they are taking a vaca-tion in the lap of lurury when they eat ham or beef and get plenty of condensed milk for their coffee, and sleep in a warm shanty, these may at least claim to be the lumbar vertebrac

In fraternni or-ganizations for instance, the members do not join for the purpose of expanding their brother-ly affections, but for the benefits they receive therefrom. The sky-pliot while looking up to heaven and appealing to the Almighty, at the same time is feeling around for the sandwiches, and if he does not see them coming his way, he soon changes his tactics and looks around for other means by which to secure them. The police-man does not beat you over the head because he likes to, but for that same sandwich, that same material interest is at stake. Now let us get to organization. You under-stand why it is that the Salvation Army is not composed of working men, why he does not be-come affiliated with it, and the answer is, that he does not see any benefits to be derived from it. And the result is that they scream at him from the streats and from the rostrum and nothing is accomplished. We hear on all sides contempt expressed by the worker in refer-ence to these sky-pilots.

Now we, the Industrial Workers of the World Now we, the Industrial Workers of the World who claim that we stand for the working class, who go out onto the streets and speak to the worker, telling him that we are an organisation looking after his interests, that his grievances and troubles are our own, that an injury to him is an injury to us all, and that we are looking after his general weifare. Those of us on the inside understand, but the other fellow on the outside, he has to be shown. In this western country the conditions differe

on the outside, he has to be shown. In this western country the conditions differ a great deal from those of the east. A major-ity of the workers in this part of the country do not know what a home is. The only home most of us have is the roll of blankets which we carry on our backs. In ninety five cases out of one hundred he is single and his work often comucils him to travel often be force there compels him to travel often as far as three hundred miles in search of employment, while in the east a majority of the workers are married and therefor not transients.

We must look at the worker from a different point of view here west of the Rockies. Un-derstanding the conditions of camp life, under-standing the conditions of our western Indusenvironments in which the floating proletariat is subject to, we must prepare to meet those conditions conditions.

Now let us take the Y. M. C. THE SPOKANE FREE SPEECH COM.

TRIALS ARE A FARCE.

In the Spokane police court there is not the slightest pretense of observing legal procedure when an industrial Worker of the World is up for speaking in a public place. The prisoners are sentenced to jall, fined, sent to the rock are sentenced to jair, nnea, sent to the rock pile without being given an opportunity to say a word in their own behalf. This is about the way a trial is conducted in the Spokane police court:

I am convinced that the dominant class in Spokane are conscious of the truth of all the many charges made, but like the dominant class in every society, they will give support to any course of conduct which promises to perpetuate their reign.

When you say that in this uninvited public-ity Spokane has conducted herself with "de-cency and decorum." you prove that you would have praised the Spanish inquisition for its moderation and decency, had you lived at that dear moq day.

I infer from what you are reported to have said that if I have less than \$1.00 in my pocket, the police are justified in breaking my ribs, striking me with their fists, with their clubs, or in doing any other brutal thing that might happen to occur to them to do. These men were poor men, all admit that, but they are honest working men and have helped to build up Spokane with all its beauty and magnifi-cance. They are the real empire builders, but having builded, the masters have possessed, and now you, in the garb of their shepherd, justify their robbery by these masters.

But I notice that, while commending the po-lice for the "kind and gentle" manner in which they have enforced the law, you have had noth-ing to any about the manner in which these same police have set at naught the constitution of both the state and of the United States. You have refrained from asying anything about the confiscation of "The Industrial Worker"; you have been silent as to the cloalary of the the confiscation of "The Industrial Worker"; you have been silent as to the closing of the hall of the I. That is, you can-not afford to see your masters suffer, for to do so might lessen your subsidy. That is a thing that cannot be tolerated. It is so much

Owing to the fact that persecution is being carried on in a high-handed manner by those who hide under the disguise of law and order, the Executive Committee of the I. W. W. in Spokane has moved the Defense Fund head quarters to Coeur d'Alene, Idaho, which is in another State and close to Spokane

SPECIAL NOTICE

No man who is a prominent and active worker in the I. W. W. is safe from arrest under the trumped-up charge of "Criminal Conspiracy"; all the old offenders and editors are at present in jail in Spokane. The penalty provided for this trumped-up charge is five years in the penitentiary. The best lawyers in the country have been engaged to defend our fellow-workers. These attorneys are high-priced men, but money is nothing when we consider the noble characters and principles of the men who are supposed to be rail roaded to a prison. Many of the officers and editors who are awaiting trial at the hands of a venomous enemy have given up home, money and friends to fight for the grand principles of "One Revolutionary Union of Workers."

Bread Lines, Bull-Pens, Child Slavery, Prostitutes, Vice and Crime must all fall before this "One Union of All Workers."

Over 300 men are in jail and more going in daily to suffer the tortures of hell, that freedom of speech may again be wrested from a money-mad class, who are mortally afraid of seeing the working class united. These men will These men will serve 30 days on bread and water, and when they get out they will immediately be rearrested.

The best legal talent has been engaged in Chicago, Seattle and Spokane to defend our officers from the masters' wrath. We must have the sinews of war. You must help. Send all contributions for "Free Speech Defense Fund" to

 We find that the centering of the management of industrial sinto fewer and fewer hands makes the trades unions unable to cope with the every-growing power of the employing class.

 Why You Should Join the industrial Workers of the World.
 The trade unions foster a state of affairs which allows one set of workers to be pirted against another set of workers in the same industry, the column for the workers in the same industry.

 Because there is a class struggle — capital arrayed against labor.
 Moreover, the trade unions ald the employing class to mislead the workers into the hold their own against the ever-increasing common with their employers.
