LANE LUMBER COMPANY DRIVES POLICE CRAZY, CAUSES MEN TO BE CLUBBED TO INSENSIBILITY, BLACK HOLE OF CAICUTTA DUMPED; DAMAGE SUITS TO BE FILED

ENTHUSIASM RISES EVERYWHERE MEETINGS HELD, MEN INITIATED ASSAULT TACTICS OF POLICE USED TO BREAK UP FAMILIES; TRIALS AND VAGRANCY CHARGES LOSING FORCE

(Special Telegram) LOS ANGELES, June 1.—One hundred forty men who were arrested on May 15 for unlawful assembly and displaying the red flag along with the flags of all other nations have been acquitted and released their own recognizance.

SAN PEDRO, June 8.—A large enthusiastic meeting was held here tonight while we have transferred the strike to a job, "solidarity" will be the watchword. A thousand were present. A large number of inequities were taken by the delegates. A collection of \$71.00 was taken to help pay the expenses of the funeral of Fellow Worker Paul Borgsen, member 2509 of the I. W. O. His death resulted from pneumonia, developed from a cold contracted while sleeping on the damaged floor in the city stockade.

On the 29th, while the father and the two oldest boys were at work, the police grabbed one of his children out of school, which he had attended regularly, and brought him home and turned them over to the juvenile court for care taking, giving notice on the father to show why they should not be taken away from him permanently.

On one of the four complaints the police arrested the real and only reason for this outrage: "Father and daughter are I. W. O. workers."

The daughter is a rebel girl and makes trouble among the neighbors. We have retained counsel to take vigorous steps on her when the hearing is set to put a stop to this dirty trick.

Thirty-five come up for trial tomorrow morning and it will be about the same for the next 15 court days.

With a large trial (28 defendants) coming up here on June 29, the smaller C. S. trials in the office and nine other trials in the court in California, San Francisco Defense Office, 100 Comers Street, room 226 Russ Building, San Francisco, should be arranged with funds.

LONG BEACH, May 29.—Fellow Worker (name withheld), a black dog, was convicted at Santa Ana on June 18, was arrested July but released after four hours. They probably did not want to rob Orange County of its intended victim.

He reports that men with a little red card in their pocket are getting quite numerous around the oil fields, and that he met quite a few of them whom he found in some of the latest members of the One Big Union.

SAN PEDRO.—Meetings with splendid attendance continue. The membership is going back to work in such a way that the state supreme court on appeal. The defendants granted a new trial, which means the case is most likely to be dismissed.

SAND POINT, Idaho.—The case of William Digman and Jack Doyne, convicted on three counts of criminal syndicalism over three years ago, have been reversed by the state supreme court on appeal. The defendants granted a new trial, which means the case is most likely to be dismissed.

THE BOSS WOULD RATHER HAVE ME DANCE WITH THE OLD HEN BUT SHE DONT KNOW THE NEW STEPS — BESIDES I LIKE THE YOUNG ONES WHEN IM GOING TO DO A MARATHON.

parry, working through the Chamber of Commerce, has been so clearly established and is so much a matter of common knowledge that they dare not and do not deny it.

The defense office is visited daily by our friends from the Red Squad, probably with the idea of intimidating us. Of course they have a fat chance.

Damage suits aggregating about a quarter million dollars will be filed shortly against Chief Oaks and the City of Los Angeles.

The possibility of Criminal Proceedings against those brutes, who thought they might acquire the favor of the Los Angeles Mayor by bestial abuse of helpless prisoners, is under consideration.

Workers whom I meet on the streets tell me that they are lining them up and selling lots of papers and literature. Fellow Worker Paul Borgsen was murdered by the Los Angeles authorities.

We call it murder, as he died of pneumonia which developed from a cold which he contracted while being compelled to sleep on the damp steel floor of the city stockade.

I understand that his sister, whose sole support he was, is going to be financed to come out here to bring a heavy damage suit against the city.

A mass meeting with good speakers, music, etc., is being arranged by the Walker Auditorium for Saturday, June 2, at 8:15 p. m.

The funeral of Fellow Worker Paul Borgsen takes place at 3 p. m. on Saturday, June 2, at the First Presbyterian Church. The funeral will be kept in touch with the Fellow Workers in San Bernardino and Santa Ana and their cases as well as the judge.

Three hundred strike breakers who were brought to San Pedro and quartered at the new immigration station went to work at a number of them were discharged and all the others were fired. The message was that we should know how about their pay. The workers in San Bernardino and Santa Ana and their cases as well as the judge.

VICTORY FOR SAILORS WHO SHOW SOLIDARITY BEFORE LEAVING PORT

PORTLAND, Oregon.—We just won a complete victory here on the Livit W. Ostrander, a five mast schooner bound for China. The boat was sold to the Chinese government where she was to proceed with a cargo of lumber. The crew was to be paid off China and their fare guaranteed back to America.

So yesterday morning the commissioner came aboard to sign up the crew and to read the articles previous to signing up. He read where we were to receive third class passage back to the U. S. We immediately refused, unanimously, to accept anything less than second class, which we won after about 30 minutes when they saw we were all together in our demands.

Then the skipper had a fit and said he would give us no more money. We started to go to the owner and after holding a "confab" they offered us \$65, but we refused. Here we had a slight break in our solidarity as one weakling "mollycoddle" promised to stay for us.

The skipper then sent for all of us to come to the cabin, one at a time. We started to go to the owner and after holding a "confab" they offered us \$65, but we refused. Here we had a slight break in our solidarity as one weakling "mollycoddle" promised to stay for us.

ONE UNION COAL MINE NOT WELL UNIONIZED COMPLAIN THE MINERS

CLEVELAND, O., May 31.—"We ask no man's union affiliations." This was the answer of Warren S. Stone, chairman of the board of directors of the Coal River Colliery Company, operating mines in West Virginia and Eastern Kentucky, today to the statement of Fred Mooney, secretary of District 17, United Mine Workers of America, that the international miners' union had called a strike at these mines because of the adoption of the "open shop" policy.

"At our workings in West Virginia we pay the union scale," Stone explained. "Men may join the union or stay out. In Eastern Kentucky the miners are not organized. They can form a union if they wish. We pay the prevailing rate and blocking the traffic, and that we were arrested without justification on the part of the officers of the law."

Stone, as grand chief of the Brotherhood of Locomotive Engineers, is head of one of the strongest and oldest labor unions in the United States.

"The Coal River Colliery Company is largely owned by members of the Brotherhood of Locomotive Engineers. A \$2,000,000 corporation was organized during the coal strike of 1922, the mines purchased, and the announcement of policy it was stated that the company, unlike other corporations, had a soul."

ASSAULT FOLLOWS ILLEGAL ARREST POLICE CHIEF CRAZED WITH DRINK

STARK, BEGEL, WEDGE, FLAHERTY AND OTHERS THE VICTIMS OF POLICE ATTEMPT TO BREAK WATERFRONT STRIKE

We are just in receipt of affidavits regarding the brutish of police officers in San Diego and Los Angeles during the recent strike. They are being printed to show to the world the lengths to which American capitalism is going to prevent the workers obtaining any measure of justice. Comment is useless. We will let the facts speak for the conditions.

Every affidavit printed is an exact duplicate copy of the original to which the affidavit testified by oath.

AFFIDAVIT OF CHARLES H. BEGEL, I, Charles H. Begel, of lawful age, being duly sworn, depose and say that on the night of Wednesday, May 16, 1923, while I was a prisoner in a tank on the ground floor of the city jail, Chief Oaks came and stood outside of the tank in front of the bars and asked me to question the prisoners through the bars concerning the cause of his arrest.

After he called that I was guilty of an infraction of the laws, Chief Oaks proceeded to call this particular prisoner a "dirty contemptible liar" and then applied similar but much more emphatic statements, accompanied by the most vile and obscene language, to the rest of the prisoners.

Chief Oaks then asked me if I was part of the strike and I said that I was not. He then asked me if I was part of the strike and I said that I was not.

AFFIDAVIT OF HERMAN DE JONG, I, Herman de Jong, of lawful age, being duly sworn, depose and say that on the night of Wednesday, May 16, 1923, while I was a prisoner in a small tank on the ground floor of the city jail, along with 32 other prisoners, I saw Charles Begel being led in front of our tank by Chief Oaks.

AFFIDAVIT OF LAWRENCE CUPICH, I, Lawrence Cupich, of lawful age, being duly sworn, depose and say that on the night of Wednesday, May 16, 1923, while I was a prisoner in a small tank on the ground floor of the city jail, along with 32 other prisoners, I saw Charles Begel being led in front of our tank by Chief Oaks.

PLANS ARE BEING LAID IN BUILDERS EXCHANGE TO ADJUST WAGES DOWN

Through a "leak" in the Builders Exchange we can report that a convention of the Builders Exchange is being held in the next two weeks for the purpose of "adjusting wages."

In spite of the fact that there is still a lot of building going on here there is, in the Builders Exchange, a plan to reduce wages and more side men than a year ago. So it is a cinch that most of the adjustment will be downward.

The A. F. of L. Union, particularly the carpenters of Oakland, have been holding periodical mass meetings and proclaiming to credulous suckers that the good time is over and that wages are slated for grand comeback this summer, and if the workers would only combine a jacking up of at least two or three points by the first of the month they would be able to get it.

Since you can fool all of the people some of the time these meetings usually result in more or less of a "kick" over the situation to the fold, and through them the picture artists receive a "kick" in execution, but we can discover have even been submitted to a monthly strike rate of at least two or three points by the first of the month.

When they were right in front of our tank I saw Chief Oaks hit Begel in the face a number of times and also knock him over on some sacks of vegetables which he had taken from the ground floor of the city jail, along with 32 other prisoners, I saw Charles Begel being led in front of our tank by Chief Oaks.

IN AGAIN, OUT AGAIN

PONCA CITY, Okla.—A. W. I. 110 has been closed their convention at Oklahoma City. I was arrested here as being an agitator and was taken to Newkirk. They are organizing but did not prefer any charges against me. They also arrested Paul Borgsen and took him to Newkirk. They kept us in the city jail here for two days and then the sheriff took us to the county jail at Newkirk. They kept us in for a while and then released us and gave our cards and my credentials which Charles Begel had been sent to Newkirk. So we had to go back there with me.

Fellow Worker, how long will we have to put up with this kind of treatment? Let us get together in the one big union and tell those big parasites to go to work.—(H. T. Collins)

AN IMPARTIAL JUDGE

Judge Vicini of Amador Co., California, went to Los Angeles and had himself interviewed on the Wobblie situation in the state. He claims all the glory of having introduced the criminal syndicalism bill in the California legislature. Hear, Ye!

"This law, which provides a sentence of from one to four years—if it can be proved that the accused is a member of the I. W. W.—has been in force for several years, but I don't believe it meets the situation properly. I fear the law has had little effect in stamping out the growing menace of radicalism. Other states have enacted legislation and in many instances the laws have been laughed at by the Reds. The one cure is federal legislation with teeth.

It does not matter whether the federal legislation has any sense or reason. It must have teeth. Must be born with teeth, like other animals of the jungle. But it really is sorrowful for Heizer to admit the law he introduced and which he is impartially interpreting has broken down. He fell down on the job he set out to do, he wants some one else to carry it through.

But what can be expected from one who refuses to be honest? Even his own class must know and despise him. In closing his interview, as printed in the Times, Vicini accuses the I. W. W. of having set the Jackson Mine on fire. This in spite of the fact that Vicini knows every death in the mine was directly due to failure of the company to provide proper fire escapes.

Vicini is one of the "impartial" interpreters of the law met with in Barbarous California so frequently.

THEIR TRUE COLORS

President Harding has received religious consolation for the course he has pursued in keeping the class war prisoners in the penitentiaries of the country. And like all people of a deeply religious nature, he gave thanks to the preacher who gave him such unctious praise for his course. "You scratch my back and I'll scratch yours."

The New York Herald reports J. B. Clark, a preacher, as having made the following statements: "The Red does not admit, does not believe that every human society must of necessity be composed of several strata.

Those that were yesterday at the top may be in the new order of things find themselves dispossessed." Clark played the Reds to the best of his ability.

After the sermon President Harding is reported to have gone to the pulpit and thanked the preacher for his sermon.

Which leaves us just where we were before. We can go on sending petitions and get nowhere toward the release of the class war prisoners, or we can renew the fight along economic lines. We can say "Please, Master," or we can demand like men.

There is no use quibbling about the matter of the class war prisoners. Nothing but the cowardly cringing of the prisoners themselves or the vigorous demand of those organized in an industrial organization will ever release the class war prisoners before they have served every minute of their time.

Let us strengthen our organization at every point for the next trial of strength. Another effort is coming and we need not blink the fact. Those class-war prisoners are prisoners of the class-war. They must be released. They are of our blood and have gone down into hell for us and our organization. Petitions and pleas have been sneered at every time they have been presented. There is nothing left but to organize, go to the industrial bosses who had the men imprisoned and DEMAND THEIR RELEASE!

AWAKE THE IDEAS

The question of what is might was recently raised in order to kill it. Might is right. What is might?

We read of the strength of the gorilla and ant-physical strength and endurance beyond that of any man. We agree that the human is surpassed in all of his physical feats and faculties by some one or other of the lower animals.

But it is in the faculties of the brain as a thought-producer that man is supreme among animals. This being a physical feat of the brain I say in this exception. Man has, by virtue of his superior brain power, forced all other animals into submission to his will. In the same manner has a small number of mankind forced the large majority into submission to the numerically insignificant minority.

Progress is now needed in the psychological field, not in the manner in which man provides his existence. People working at the most intricate mechanisms still have the psychology of the cave man. Had we progressed a tithe as much psychologically as we have mechanically, this insane system of production and distribution of the necessities of life and enjoyment of luxuries would have been laid to rest with Tut-anh-amen.

We must bring the consensus of opinion—the might—as to the righteousness of our cause onto our side. We must have ice breakers for our free speech meetings to break the channels of frozen apathy. We must have mine sweepers to clear a course for our mariners of economics. We must have psychological mine sweepers to sweep from the capitalistically fortified mind of the workers the barriers of prejudice. We must make the drowsy drones to signs of mental life.—Jack Junker.

INDUSTRIALLY ORGANIZED WORKERS ARE TRIUMPHANT

If there is any one thing that is harder—harder, more impossible—for a politician to do than to make a speech, it is to learn something new. Of course, there are new persons taking up the political game every day, but the minutes they spend before the microphone are all their energy goes into trying to get over their own egos. They will never be until industry is organized. They will never be until industry is organized. They will never be until industry is organized.

The professional politician is it useless to outline our program and aims. Unless to get before them a new idea. Of no avail to explain a new method of gaining our ends. There is in the one and only, the time-tried method that has been always used and that we must continue to use. None other remains. But others are being confused by their claims and to those we would give a word of warning.

Their political program is to organize a party, or use one already organized, to work toward some definite purpose. To get before them a new idea. Of no avail to explain a new method of gaining our ends. There is in the one and only, the time-tried method that has been always used and that we must continue to use. None other remains. But others are being confused by their claims and to those we would give a word of warning.

JUST THE USUAL

It is a hard task, a heavy task. At times it seems endless. It almost discouraging. But at times it is relieved with something so grotesque as to be humorous. What are we referring to, you ask? Oh, the lies we see so frequently. Genuine unmitigated lies printed with intent to deceive. Statements which the liars have good opportunity to know are lies, yet which are circulated just the same.

The Yakima Independent has this one: "I. W. W. Anarchistic Creed—
"I do solemnly swear that I hold in contempt all institutions of capitalism, including ecclesiastic and secular; and its laws, its flag, its courts, its codes, its churches and its religion; that I will obey all summonses and commands of the elected officials of this order under penalty of death, and spare neither my time, effort nor money, to the last drop of my blood.

The inventor of that one had been reading Deadwood Dick and the Ku Klux Klunker. The Klux report a lie something similar—has been read.

But to be serious: Anyone who can prove that to be an I. W. W. oath has his fortune in his hands. The capitalist courts are searching everywhere in earth and hell for something more than prejudice to convict the Wobblies on. If F. C. Whitney & Sons of the Yakima Independent can prove the above to be an I. W. W. oath, the capitalists will give them all the reward they dare ask, and then double it for good measure.

We dare them to try to prove it!

THE MASTER HOWLS

We must have hit the lumber companies harder than we thought in the strike. A leaflet is being circulated around the Clear Lake logging district which contains references to most of the lies that have been repeated against the I. W. W. These are handed out for gossip among the I. W. W. These are handed out for gossip among the I. W. W. These are handed out for gossip among the I. W. W.

"We have all had mothers and sisters." Especially their mothers. Then they serve up this one: "No man has a right to interfere with you in your work." But why do the lumber companies blacklist workers and prevent them earning a living?

It is the strike which has hurt them and they are howling about it. The fact that the leaflet is signed, "A Fellow Workman" does not signify anything. It is still a company howl over the loss of profits they expected to make. But there is no cause of alarm over the appearance of the leaflet. There will be others and worse as we perfect our organization and get even better results in the future than we have in the past.

The howls of the masters are but an indication of how well we have hit them.

GLORIOUS PRIVILEGES MIGHT BE TAKEN AWAY

LOS ANGELES, Cal.—Just got out of the can this morning, a free human once more. I was in the city jail here at the Plaza, both in the city jail and Lincoln Heights, both in the city jail and Lincoln Heights, both in the city jail and Lincoln Heights.

In a tank, by 14, 108 Wobblie workmen, sleeping on the floor without blankets. When we would sign the guard's ledger, we were told that we did not have any more blankets. We told them we did not have any more blankets. We told them we did not have any more blankets.

INDUSTRIALLY ORGANIZED WORKERS ARE TRIUMPHANT

If there is any one thing that is harder—harder, more impossible—for a politician to do than to make a speech, it is to learn something new. Of course, there are new persons taking up the political game every day, but the minutes they spend before the microphone are all their energy goes into trying to get over their own egos. They will never be until industry is organized. They will never be until industry is organized. They will never be until industry is organized.

The professional politician is it useless to outline our program and aims. Unless to get before them a new idea. Of no avail to explain a new method of gaining our ends. There is in the one and only, the time-tried method that has been always used and that we must continue to use. None other remains. But others are being confused by their claims and to those we would give a word of warning.

SOMETHING TO THINK ABOUT

You as a laborer participating in a strike, you as a laborer participating in a strike, you as a laborer participating in a strike.

You as a laborer participating in a strike, you as a laborer participating in a strike, you as a laborer participating in a strike.

WOBBLIES "SOLVED" AGAIN

Are you aware of the fact that on last Saturday, representatives of the lumber and logging industry held a wonderful meeting? They invited the Wobblie problem?

They invited the Wobblie problem? They invited the Wobblie problem? They invited the Wobblie problem?

THEY CAN ALL LEARN

I have been traveling over three counties in the past three weeks obtaining names and addresses to mail literature to. With me I have a number of copies of the document I found among the public and the farmers, I am certain that we have 98 per cent of the public mind us. At the May 21st picnic in Portland, at which 2,000 people attended, three-fourths of those were farmers and church people, and those people told me that as long as the I. W. W. avoided violence, the same as we have always done, that we would have the public behind us. (Joe McGraw).

BOOM! EDUCATION

By JACK RUDGE

As a member of the I. W. W. for a good many years and as I have never asked for a space in the Worker or Socialist, I am glad to see you print the following: Workers—In traveling around the country, I have observed the labor question on both sides in general, I ran across a bunch of people who are entirely ignorant of the I. W. W. and what its objects and principles are, and what it has done for the workers in craft unions reform.

WILL "OLD" PROTEST MEETING

Called at meeting of L. W. I. U. No. 120, Portland, Oregon, June 1, 1923.

Whereas: The recent strike in the Northwest was primarily for the release of men held in prison by their own government and was our purpose in transferring the strike to the job, to carry on agitation until this end is reached.

WITH A RAIN OF SCORN AND WIND OF LAUGHTER THEY FLOUT VILE LAWS

By ABE SUTHERLAND
(For the Portland Press)

LOS ANGELES, Cal.—The criminal syndicalism law of California needs a hearse rather than a prosecuting attorney. It is a law that has had the sanction of the Los Angeles defense committee which represents the San Pedro strike, and which is the grand jury.

INDUSTRIAL DEMOCRACY

The danger of the plans for Industrial democracy does not lie in the "probable lack of the class war prisoners, or we can renew the fight along economic lines. We can say "Please, Master," or we can demand like men.

BATING 'EM OUT

Pennsylvania railroad (conscience-stricken) grants shoppies \$4,000,000 pay boost.

"Bolshevism is a skin disease, says Max Gorki, and urges U. S. to shake fist at Europe to end same. Wouldn't it be better to make them suffer?"

American Fascist advertising for help in the East columns. Business doesn't feel like doing the dirty work itself.

If Bolshevism is a skin disease and capitalism is a skin game, what is California's syndicalism?

By the way, California Criminal Syndicalism is finding heavy grades around San Pedro. The class war fools went and arrested Upton Sinclair who is as red—as a bottle of milk.

Hiram Johnson isn't saying a word nowadays. When Hiram isn't talking he is thinking. He thinks the trend of his thought? Maybe he thinks the criminal cynicism of the legislators is patting his criminal aspirations in a bad hair.

I think so, Hiram, and this is more publicly than in England. It is since Borah strangled the Court of Notions.

What's the matter, Hiram, can't you keep up with the times?

BOND AND BOND OBLIGATION

TO ALL MEMBERS OF THE I. W. W.

One of the greatest assets of the Industrial Worker is his money. The money he has saved... The organization has succeeded, time after time, in assuming leadership of the organized groups, simply because the organized respect and admire and trust the I. W. W.

in the face and defy all and sundry to point to a flaw in the practice or their principles, the outcome is sure; the unorganized will flock to the Three-Star Workers of the World. They will give openly the allegiance that they grant so secretly to the I. W. W.

The reason they have been able to do this because the I. W. W. has the good will of the unorganized and the mismanagement, many and many a time, workers who are not ready to take up the fight against capitalism...

The workers who put up the cash are in desperate need of it. They are being held back by the I. W. W. for being "holding the sack"... They are being held back by the I. W. W. for being "holding the sack"...
