## LUMBER BARONS TRY TO IMPOSE COMPANY UNION ON LOGGERS TO HEAD OFF REAL ORGANIZATION

### Offspring of Old 4-L Tries to Fool New Lumberjacks

#### SAY STRIKE NOT NEEDED

Born out of the old 4-L company organization, and depending entirely for its support upon the companies of the lumber industry, the Industrial Employees Union, Inc. still persists in calling itself a genuine labor union. This is something that the lumberjacks who are still young or who are new in the districts where the 4-L used to function ought to take careful note of. The old timers should understand the situation without further comment.

The unlamented parent of the I.E.U. was formed to reduce the wages which the lumberjacks of the I.W.W. had raised during and immediately following the war. It was financed by the lumber barons to scab on the I.W.W. men when these went on strike.

The Why of Company Unions  
The 4-L was started AFTER the I.W.W. had made headway against the low-paying lumber companies in those by-gone years. In the Clearwater district of Idaho neither the 4-L or the promoters of the new I.E.U. (in existence since May) thought of higher wages and better conditions prior to 1936. The fact is, those promoters were not and ARE NOT interested in higher pay for the workers. Quite the contrary. It is only when these gentlemen see that the workers are getting into a real union that they bestir themselves to stage a counter-attraction. When they see that the workers insist on organizing they try to hand them an organization which the bosses can control and then they have the gall to claim that such gains as have been obtained through the tireless efforts of the Webbies are the fruits of their own sniveling, boot-licking, boss-loving policies.

Make no mistake, lumberjacks, the I.E.U. Inc. is not in reality a labor union at all. As was pointed out in a recent issue of the Industrial Worker, the I.E.U. simply stepped into the place left vacantly by the Loyalty League of Loggers and Lumbermen, taking over its property and its function as a protector of the employers against the fighting, rank and file controlled I.W.W.

In one of the I.E.U. articles much is made of the fact that its members are getting wages as high as those of other unions. Perhaps it is so, and if it is so what does it mean? Simply this: that they are sharing in benefits that they did not help fight for; they are enjoying the fruits of other people's labor and faithful service on many a picket line. Under these conditions it seems hardly decent for the I.E.U. to brag that its members don't have to strike to get raises.

### Reaping Where Others Sow

When union workers strike and some of them lose their lives even

(Continued on page 4)

## Can Makers Enjoy Sit-Down Strike

TOLEDO, (FP)—Though the production of cans cannot be strictly classed as part of the automobile industry, workers employed by the American Can Co. are autoworkers just the same. The members of the union have a contract covering the shop. For two days they had a chance to relax in the shop, stop to talk to people, play, sing and all that. Because they were on a sit-down. Because the company fired off its union leader. For inefficiency, they said. For union activity, we said.

Henry Ford's conveyor got nothing on American Can's Round and round got the cans. Round and round went the workers. Two nights free dancing. The gates open. Everybody had a good time.

## STRIKING GANDIES ARE BACK ON JOB

TACOMA, Wash. — The strike of Milwaukee Ry. extra gang number 106 has been transferred back to the job by a vote of the strikers. This action was taken when other gangs, considering that the time for an extensive strike was not opportune, declined to follow the example set by number 106. Delegates continue to report progress in the gandy organization drive.

## Hollywood Sends Help For Spain

HOLLYWOOD (FP)—Two ambulances bearing the flames of 26 novice stars, directors and screen writers have left Hollywood on transcontinental tour to New York on their way to loyalist Spain.

Contributed by the Motion Picture Artists Committee, the cars have painted on their sides such names as Franchot Tone, Betty Furness, Ben Hecht, Lewis Milestone, Konrad Bercowicz, Gail Sondergaard, Herbert Biberman, Dudley Nichols, Guy Endore, Stella Adler, Donald Ogden Stewart and 15 others who were most instrumental in raising funds for their purchase.

The cross-country tour of the ambulances will be accompanied by showings of the new film, "The Heart of Spain."

## Organized Scabbery Case May Go to the U. S. Supreme Court

AMBRIDGE, Pa. (FP)—The nine old men in black robes may have the final word on the unprecedented tangle of the labor situation at the All Electric Products Corp. here. The Intl. Brotherhood of Electrical Workers signed a closed shop contract during a C. I. O. strike and more than a year ago labor board poll, 100 to 675, won over 155 ballots in challenge and the United Electrical and Radio Workers' (CIO) charges company coercion. The A. F. of L. union, angered by the labor board's action in siding with the contract pending the poll, announced its intention of testing the entire case, regardless of the final labor board decision.

## Popeye's Boss Still Refuses Concessions

NEW YORK—A collective, bargaining bill conducted by the labor board among men and women who draw the animated Popeye cartoons has certified the Commercial Artists and Designers Union (A.F.L.) as sole agent to represent the 122 employees of the Max Fleischer Studio. The vote follows several months of militant strike action. The strike continues, with the company preparing court action to block the decision.

## No Right to Strike Says Farley of Men In Public Service

TOLEDO, (FP)—Loyalty to the American Federation of Labor was reaffirmed by the Natl. Federation of Post Office Clerks, as delegates to the convention here gave a standing ovation to Francis Dillon, A. F. of L. general organizer and right-hand man of Pres. William Green. Dillon gave a short inspirational talk.

Attending were 381 delegates from 108 locals representing 39,211 dues-paying members, compared to 34,000 last year. Almost 100 new locals were set up in the past year. A battery of political speakers, senators, congressmen and Postmaster-Gen. James Farley addressed the convention. Farley stressed his belief that no group of employees serving the public has a right to strike. Many delegates wore badges supporting the proposed "court of appeals" for postal workers to provide job security. Resolutions introduced dealt with hours, vacations, pay differentials between day and night workers and other job problems. A strong, active women's auxiliary held separate meetings.

## Poison Ivy! Stamp It Out!

### TEXAS VIGILANTE JOB

Herbert Harris, Socialist organizer is shown after gangsters brought in by open shop manufacturers had finished tarring and feathering him.

## Daddy Beck Says Children Must Be Taught a Lesson

SAN FRANCISCO, (FP) — "A father disciplines his child. Father Green is disciplining the longshoremen."

This was the vice-pres. Dave Beck of the Intl. Brotherhood of Teamsters characterized the bitter west coast jurisdictional struggle, as he came here from Seattle to take personal charge of the truckdrivers' end of the fight. He said there would be "no compromise."

Beck rejected anew proposals of Harry Bridges, west coast longshore and C.I.O. chief, for a labor board poll to determine what union the disputed warehousemen want to belong to. His refusal came as the San Francisco Labor Council finally ousted the Intl. Longshoremen and Warehousemen's Union, removing 15,000 members from that body.

Beck said he was "not interested in any vote—we are interested only in observance of A. F. of L. laws, and the federation has given the teamsters jurisdiction over the warehousemen. This situation is no concern of the labor board at all."

## Leader Asks Boss Consent To Line Up Apple Pickers

WENATCHEE, Wash. — A C.I.O. organizer who flew into this town with the announced purpose of organizing the apple knockers nearly fainted when he learned from the growers that about 12,000 men would be needed to harvest the apple crop this fall. It was too much for him when he figured out what five dollars a head from each of all these workers' for a C.I.O. card would amount to.

At a meeting held by Wenatchee growers and packing company heads this "labor" organizer opened up his campaign with the declaration that the C.I.O. would not tie up the industry egg, cripple the growers in any way. He let it be known, in a nice way of course, that all he was after was the consent of the bosses to collect the five bucks from the working men and women who will soon invade the territory to harvest the fruit crop.

It seems, however, that the growers intend to do their own labor bossing. Never mind, the I.W.W. will be on the job and it won't open its campaign with a conciliatory speech to the employers.—A. J. Treussell.

## Still No Raise in Sight for Rails

CHICAGO, Ill. — Dr. William Leiserson, chairman of the national mediation board, who has been trying to find a way to satisfy both the railroad operating brotherhoods and the railroad companies on the demand of the former for a 20 per cent increase in wages, held another conference with the representatives of 86 railroads and the five brotherhoods involved.

It seems that the next step in the long process of telling the workers that they can't have a raise is to get a federal fact-finding board on the job.

The brotherhood members voted a long time ago to strike if they were not given the raise. They are waiting for their officials to give the word.

Dale Carnegie advertises that the Ford Motor Co. is giving out copies of How to Win Friends and Influence People among its employees. Is the service department going in for new styles in influencing?

## THE FIRST REQUIREMENT FOR A JOB AT FORD'S IS SPEED

By A Ford Employee

For the last three weeks the Ford handicappers have been making the rounds with stop-watches and scratch pads. Very systematically all jobs on production are timed to get the speed at which the machine operates and the speed at which the operator can take care of it. Then the "board of strategy" can study the tabulations and figure out plant production over a period of hours, days, weeks, etc. of parts or complete units. The machinery is NEVER slowed down.

The whole operation, as a Ford apologist concluded and summed up briefly is: "The machine never speeds up the operator, but merely sets a pace for the operator to follow." In the latter part of his article he stated: "Many times, however, the operators had deliberately slowed down and even stopped tending the machine, resulting in decreased production."

That seems to show the necessity of man power even though the machinery of production is efficient and simple to operate.

The handicapping corps labors with the idea that all employees are hired by Man O'War, so the machines are stepped up—and the employees step with them, or else.

From September 7 to and including September 10, there was no night shift. Apparently the morning and afternoon shifts were able to produce the required number of units. On August 25, 40,000 were laid off, on September 3, thousands more were

## CAPITALISTS OF ALL COUNTRIES CONCUR IN MOVES TO ESTABLISH FASCISM THROUGHOUT WORLD

### Marine Transport Workers Notice

Every member of the Marine Transport Workers I. U. No. 510 of the I.W.W. is urgently requested to get in touch with the Chairman of the G.O.C. immediately, and supply him with his address, preferably a permanent one.

—H. O'Connor, G.O.C. Chairman, Box 800, City Hall Sta., New York City.

### Slow Down Tactic Gets Quick Raise

WATSONVILLE, Calif. — Cold Storage plant slaves in this old reactionary town tried out a Wobbly tactic recently that got them a ten cent an hour increase in wages and a general improvement in the job.

The slaves had been getting a good deal of I.W.W. literature and a delegate had lined a few up, so when they got talking about needing a little boost in pay, they did more than just talk about it but went right to the boss and made their wishes known.

When the boss said, "nothing doing," they went back to work but slowed down operations to such an extent that after one day the boss changed his mind and raised the wages from 40 to 50 cents an hour.

It is hoped that all the slaves in Watsonville will profit by the example set and line up in the I.W.W. for all the good things of life.—60-CW-7.

"The birds have their nests. The foxes have their holes. And American citizens have one chance in 10,000 of acquiring a low-rent apartment from the Resettlement Administration." —The American Guardian.

Laws are like cobwebs, which may catch small flies, but let wasps and hornets break through.—Jonathan Swift.

### "Atrocities" Not Bad While Profits Are Not in Danger

ALL FASCISTS AT HEART

The war in China, which could be terminated in one day by the voice of the "democratic" nations if they wanted to speak up boldly and fearlessly, continues to reap its frightful harvest of death, starvation and disease.

"Like a coward," says Federated Press, "the Japanese are operating from neutral settlements, firing from behind foreign battlelines on which the Chinese do not fire. Thus the Japanese militarists are leaning their backs upon the wavering British and American policy to enable them to wage war on China with a minimum expenditure of men and resources. A quick decisive war is the only kind they can afford."

The "living conditions of the typhoon workers are as bad as they ever have been. Many of them have to sleep in box cars from which they emerge half frozen before daylight in the morning to cook their scanty meals in the kitchen before kicking off for the fields with a dry lump in their pockets for non-day lunch. There is no harder work than picking spuds and when it is made harder by long hours, overworked baskets, and sub-human living conditions, it is nothing less than torture. Under such conditions it is only the shortsaps of the season that keeps the thoughtless from killing himself."

Let's have a million arguments to put an end to such exploitation.—78-A-7.

## They're Picking Spuds in Idaho

REXBURGH, Idaho. — The potato harvest is on in this section, popularly known far and wide as the Mashed Potato Valley, with John Farley having to pick four cents a 100 pound sack for picking. That's the advertised rate and that's what the worker is promised when he goes out on the job, but they John is handing the workers a large onion basket this year instead of the regular potato basket and the poor slave is getting a good many extra pounds into the supposed-to-be 100 pound sack.

The living conditions of the typhoon workers are as bad as they ever have been. Many of them have to sleep in box cars from which they emerge half frozen before daylight in the morning to cook their scanty meals in the kitchen before kicking off for the fields with a dry lump in their pockets for non-day lunch. There is no harder work than picking spuds and when it is made harder by long hours, overworked baskets, and sub-human living conditions, it is nothing less than torture. Under such conditions it is only the shortsaps of the season that keeps the thoughtless from killing himself.

Modern Luddites

The Luddites, who in the early years of the 19th century tried to save their jobs by destroying newly introduced machinery, have their counterpart part in the present. Recently at Gillespie, Ill. representatives of the United Mine Workers of America, Lewis's best, got together with its mortal nemy, the Progressive Miners of America, and hatched out some sort of scheme to stop the further mechanization of coal mining...

"Madam is having a nervous breakdown. We just lost the dog, show."

been favorable to the workers. The outstanding fact is that employers are trying to coax the workers away from the habit of using the weapons that are best adapted to the workers' hands. Employers don't want workers on the picket line or in union councils formulating their own demands and fighting for them. They want the fundamental questions of bread and butter, working hours and conditions, job control, converted into lawyers' abstractions to be wrangled about by easy-living, well-fed, "representatives." The bosses' ideal of a future America is one in which the workers have lost the habit of direct action and where they have forgotten how to strike.

There are plenty of leaders claiming to be on the workers' side, but who are in reality the lackeys of the capitalists, trying their best to realize the bosses' ideal. The I. W. W. guards against any sapping of the "wholesome power of the working class by insisting that workers shall never give up their right of independent direct action, and what is just as important, the I. W. W. insists that the power to act independently must be exercised daily in the struggle against the employing class because this is a power that becomes stronger with use and tends to wither and shrink when left idle. The class war is on the economic field. That's the place to organize and develop workers strength.

Imperialism

Senator Nye of North Dakota recently declared in a radio interview, "If we face the choice of profits or peace, the nation will answer—must answer—We choose peace." (Quoting Roosevelt's 1936 prelection speech.) Though it all sounds very nice we know that whatever we may choose, the masters of this country will take their stand for profits every time. If we stay out of the Sino-Jap affair it is because that undeclared war means plenty of profits as it is, from goods furnished both sides. As soon as the outcome appears to threaten seriously the prospect of future profits the American business propaganda machine will start grinding out reasons why we should jump into it.

"Let's Change the Game"

When a man is playing a game at which he finds himself at a disadvantage, he is very apt to look for a change to something that is more to his line, something in which he feels the advantage will be on his side. Everybody plays with the intention of winning. In the contest between capital and labor which, by the way, is a war and not merely a game, the workers have always made their best showing on the economic field. In fact, it is the only field on which they have accomplished anything worth mentioning. Workers' activities on the picket line, in job action, in union discussion of job economics, have ever been fruitful in good results, in achievements satisfying to workers' desires.

THE PREAMBLE OF THE INDUSTRIAL WORKERS OF THE WORLD

The working class and the employing class have nothing in common. There can be no peace so long as hunger and want are found among millions of working people and the few who make up the employing class, have all the good things of life.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage system. We find that the centering of management of the industries into fewer and fewer hands means the trade union unable to cope with the ever growing power of the employer allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat the workers in their own interests. Moreover, the trade union set the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in the workers of the world in any one industry, or in all industries if necessary, cause work whenever a strike or lockout is on in any department thereof, thus making an industry or one an industry to all. Instead of the conservative motto, "A fair day's wage for a fair day's work," we must inscribe on our banner the revolutionary watchword, "Abolition of the wage system."

It is the historic mission of the working class to do away with capitalism. The army of production must be organized only for the every-day struggle with capitalists, but also to carry on production when capitalism shall have been overthrown. By organizing industrially we are forming the structure of the new society within the shell of the old.

OFFICIAL NOTICES

MANHATTAN BRANCH On and after October 4 the address of the Manhattan branch of the I. U. No. 510 will be P. O. Box 868, Church St. Annex, New York City, N. Y.

I. U. No. 110 CONVENTION The Annual Convention of Agricultural Workers Industrial Union No. 110 of the I. W. W. will convene at Cashmere, Washington, September 29, 1937. This will be a mass convention.—Chester Zook, G. O. C. Chairman.

RESOLUTIONS Any member having resolution for the I. U. No. 110 convention, and who is unable to attend, should send them to Chester Zook, Box 1836, Spokane, Wash.

BALLOT COMMITTEE REPORT We the undersigned ballot committee have tabulated the General Recruiting Union ballots on whether the GRU convention should be postponed, and wish to report that the question carried. Therefore, there will be no GRU convention this year.—Ballot Committee: John Neufeld, Thelma Beck, Celia Goldberg.

I. U. 510 NOMINEES The list of nominees sent to the Industrial Worker and published in the last issue is not correct. The correct list, sent in by Chairman of the G. O. C. Martin O'Connor, follows: G. O. C. Nominees John J. Badger, C. P. Chase, J. P. Wojnarowski, George King, Joe Dunn, Frank Natusiewicz, E. P. Newton, William Patton, Max Korzenblatt, B. Collier, J. H. Childs, Philip Lantone, Fred Hansen, Slim Johnson, C. B. Houghton, A. Martin, Beat Bears.

G. E. B. Nominees and Alternates Stanley Sawicki, Walter Dempsey, Louis Perry, Max Korzenblatt, E. P. Newton, Wilmer Fox, William Patton, Beat Bears, Frank Russell, A. Caspary. All nominees should have acceptance and nomination in the office of the chairman of the G. O. C. by November 1.

PIERCE WORKERS GIVE LIBERAL COLLECTION

The collection taken up by James Whalen, at Pierce, Idaho, September 5th, 6th, and 7th, follo worker George, who is confined in the Orofino hospital, amounted to \$94.75. We wish to thank all fellow workers and friends for this fine support to a worthy cause.—James Whalen.

CANADIAN ADMINISTRATION

In order to assist in organization work in the Sudbury District it has been decided to transfer the Headquarters of the Canadian Adm. to that City. Until further notice all mail intended for this office should be addressed to 28 Alder St., Sudbury, Ont.—Joe Poulin, Secretary.

Nazi Bread Causes Epidemic of Colic

DRESDEN, Germany.—If you have to eat Goering's 1-year-plan bread, don't drink any water afterwards! The onetime staff of life, a Nazi, is made of all sorts of inferior grains. The mixture has caused a raging epidemic of colic which made it necessary for schools here to suspend classes. The health department sent out warnings about avoiding water while eating the bread's concoction.

No great thing is created suddenly, any more than a bunch of grapes or a fig. If you tell me that you desire a fig, I answer you that there must be time. Let it first blossom, then bear fruit, then ripen.—Epictetus.

A man accustomed to work is equal to any achievement he resolves upon.—Campbell.

HENDERSON, Ky.—"Slave Days Over, We Want Union Recognition." Carpenters' strike in this city, Negro strikers from the Army Tobacco Co. here marched all over town. When asked why they didn't picket the plant, which is in the waterfront, they replied: "Nobody can see our signs there. We want the people to know we're on strike! They met a sympathetic response and emerged after six days with an agreement calling for wage increases and union recognition.

FOREIGN FASCISM IS WEAK IN U. S.

One of the essential and outstanding manifestations of fascism is its nationalistic character. So far, Italy is the only country that is free of the dangers of Italian fascism or German nazism, for, as some writers are beginning to tell us, of British fascism. Yet the Italian brand from the people here of Italian descent has been a force to be reckoned with for many years. At first the opposition to Mussolini was widespread, and vocal, but the prestige of all kinds of the anti-fascists during the years silenced most of them.

But it seems that the loyalty to fascism of many of those who have given lip service is questionable. At a meeting in Grant Park here a few Sundays ago, Ballo spoke on a transatlantic hookup. The weather was perfect, and the agencies promoting the meeting presumably set their best efforts. Yet the attendance was quite small compared with other events which have been held on the lake front this summer.

Germany nazism came on the scene late and has made too many powerful enemies here to be taken seriously. Any influence it may have here is through the German government and its representatives in this country. A daily here which has lately made extended investigations of this movement states as much, while printing the report of these investigations as a news scoop. A picnic of the Nazi organization in a short time ago attracted some 100, in spite of the fact that the leader of the party in the U. S. A. was the principal speaker.

But our own brand might be another story.—Albert Hanson.

Relief Clients Must Accept Harvest Jobs

SACRAMENTO, Cal. (FP) — In spite of an agreement with the Workers Alliance, WPA administrators that no WPA workers would be forced to work in the harvest fields, they were agricultural workers, Gov. Merriam has announced that "able-bodied relief recipients who refuse harvest labor will be dropped from state rolls."

OUT SOON!

THE ONE BIG UNION MONTHLY

OCTOBER ONE BIG UNION MONTHLY

Power of Folded Arms, by W. E. Trautmann, one of the oldest living exponents of industrial unionism. A Page of Poems, by Covington Hall, such as readers of this magazine and the Industrial Worker have long learned to like.

Silicosis: A Challenge to Organized Labor, by John Serfson, author of the fine article on Noise in the September issue.

If Only... A story by Gefion. In the opinion of some of those who have had a chance to read it, the best this author has so far written.

The Counter Revolution in Spain, by Joseph Wagner. Another article on the situation in Spain that helps to clarify it to American readers.

Several other articles that every reader will be sure to peruse with interest and profit. It's a fine magazine. Help support it by showing it to your friends.

A. F. of L. and C. I. O. Have gone to the wars.

On the road to economic security has to sleep under visitors and lumber piles. The I. W. W. is not hobbled with leadership, and personally I think leadership is too thin-skinned and its back far too limber to withstand the grief. I think we better leave them home and tell them all about it when we come back; when the workers have freed themselves from the guidance of parasites and their retainers. Emancipation! What a glorious thing, when workers shall live in peace in the friendship of their class. Just a little solidarity is all it takes, and MUCH ORGANIZATION.

Amalgamation does not grow solidarity; it is but a true and the "hates" lineage.

China invented gunpowder and should be permitted to use it. I. W. W. discovered industrial espionage and labor fakery are "try ing" to use it. (They're monkeying with a buzz saw.) Tough to be a thinking animal; brain grinning like a railroad train over a gravel crossing. That reminds me: Willie Green Jawn 'L. Lewis' has discovered "jurisdictional unionism."

New York.—Saw a man on South Street hand another man a match just as if "was nothing. People are reckless!"

Maritime Commission is the same one man jury. (Difference of opinion in merit of size of jury.) Personally I think: Omit the jury and organize the power. Juries will sing sweetly enough if you have what it takes.

Industrial commission is a one man jury—obligatory, mandatory. Therefore: report your injury to your lawyer first, do not next, company third, and commission last. Your case is prejudiced to start with.

Should your injury be an industrial offense report it to your union FIRST and, if you are a deepwater seaman, and you have the power to be up shipping over the loss of a finger nail, I am quite sure if you have what it takes, assistance and say: "Ifky, that man has lost the best part of his best hand and needs a verdict accordingly. But if your union is weak, the courts will say: "Push, push, 'tis nothing but a scotch."

It might be argued that if labor waits for leaders they will be late at the barbecue and the parasites will have the wine all drunk up. But I'm arguing that if we don't wait for them they'll get lost and stray, maybe into the enemies' camp.

It's a question whether it is good policy for labor to carry its leaders, or put them on horseback, because leaders cannot sleep except on downiest cushions and labor many times

More Strikers In Europe Than U. S.

NEW YORK. (FP) — Only 61 U. S. workers per 10,000 population were involved in strikes and lockouts on the average during the period 1930-35, as compared to 170 in Belgium, 114 in France and 63 in England, according to the Nat. Industrial Conference Board.

Run-Away Firm Must Return, Says Court

PHILADELPHIA (FP)—Goldstein and Levin Mfg. Co. must return to Philadelphia for the National Labor Relations Board. This is the second time the company has been ordered to return. Immediately after Billkopf's decision, the case was taken to Judge Harry Kalodner by the company's attorneys, who still seek to have the labor board's ruling set aside. While the union has filed a petition to have the case come up Sept. 27 for final action, the company has filed suit to ask for an injunction restraining Billkopf from making a decision in the case.

Nazi Pay and Speed Produce Faulty Ship

KIEL, Germany.—There is more to the building up of a big German navy than just appropriating money. The German pocket battleship Gneisenau, after being launched recently, had to be put into drydock again because her armored plates were not welded together properly. Specialists were afraid that the ship would fall apart as soon as her heavy guns opened fire. Low wages and speed were blamed for the poor workmanship.

By T-BONE SLIM

On the road to economic security has to sleep under visitors and lumber piles. The I. W. W. is not hobbled with leadership, and personally I think leadership is too thin-skinned and its back far too limber to withstand the grief. I think we better leave them home and tell them all about it when we come back; when the workers have freed themselves from the guidance of parasites and their retainers. Emancipation! What a glorious thing, when workers shall live in peace in the friendship of their class. Just a little solidarity is all it takes, and MUCH ORGANIZATION.

Harshness are'to be expected for the time being, and it is for that reason I make the point: Leadership is too thin-skinned and its back far too limber to withstand the grief. I think we better leave them home and tell them all about it when we come back; when the workers have freed themselves from the guidance of parasites and their retainers. Emancipation! What a glorious thing, when workers shall live in peace in the friendship of their class. Just a little solidarity is all it takes, and MUCH ORGANIZATION.

"How we are getting nowhere" once again! The great T-Bone Slim when he heard about the jurisdictional disputes of men who are supposed to be fighting the boss for us in fact do us in, though, but who are, instead, fighting among themselves for jobs. There is only one way to end that fight—shorten the day and lengthen the pay. It is an illusion to think that if one-half of the workers batched off the other half, jobs would be plentiful. The economic autocrat would shorten the crew again and again. Even if they all committed suicide there would still be a shortage of jobs from the autocrat. He would send into the industries shysters, swabones, and social psychopaths (spell it editor).

So come out to it, Mr. Labor, the I. W. W. has the right idea: "Shorten the day to begin with and every time the boss shortens the crew shorten the day again and again." That's the only way to fight the boss. Don't fight among yourselves; your treacherous progress can be used to better purpose.

Irritated men say, "T-Bone Slim always writes the same thing over and over again." That's O. K. by me. The slavery is the same. The bed is the same. The raiment is the same. The sorrow are the same, there is no joy so what the hell do they want me to write?

Got some liniment from the hospital with which to rub my back. I accomplish this by putting liniment on a telegraph pole and rubbing my back on it. Individually, boy! (God bless Dukey of Argyle!)

Irritated men say, "T-Bone Slim always writes the same thing over and over again." That's O. K. by me. The slavery is the same. The bed is the same. The raiment is the same. The sorrow are the same, there is no joy so what the hell do they want me to write?

Got some liniment from the hospital with which to rub my back. I accomplish this by putting liniment on a telegraph pole and rubbing my back on it. Individually, boy! (God bless Dukey of Argyle!)

"Union" Insanity  
In Warsaw Tamed  
In Ambridge Case

AMBRIDGE, Pa. (PP). The plant election at the National Electric Products Co. here, which resulted in 763 votes for the I. W. U. Brotherhood of Electrical Workers (A.F.L.) and 674 for the United Electrical and Radio Workers (C.I.O.), has tied a few more knots into an already tangle situation, including not only union jurisdiction but the power of various governmental bodies.

While the A. F. of L. union moved for a federal court order to restrain the labor board from interfering with its closed shop agreement and warned employees to drop them promptly, C. I. O. spokesmen claimed that company pressure had been exerted just prior to the election in favor of the I. B. E. W. The contract was originally signed during a C. I. O. strike at the plant.

Typos Hear Chiefs  
Discuss Merits Of  
Twin Union Racket

Green, Murray, and Howard engaged in verbal battles in convention of International Typographical Union.

LOUISVILLE, Ky. The 81st convention of the International Typographical union in session here is favored with oratorical exhibits by some of the most famous "typo racket" specialists as the A.P.L.-C.I.O. contest for the support of this organization grows hotter and hotter. Wm. Green, who presented the A. F. of L. side of the argument, took several shots at the president of the typographical union, Chas. P. Howard. Howard while holding the highest official position in his union was still affiliated with the C. I. O. He is also the secretary of the C. I. O. Responding to some of Green's criticism he said: "It has never been suggested by any responsible officer of the I. T. U. that the organization withdraw from the A. F. of L. or the C. I. O. organization without, he said; they were suspended.

En route to the convention Green is said to have offered to distribute some of the members of the American Newspaper Guild (now C. I. O.) to various printing trades unions. Apparently this promise was made without consulting any of the unions concerned.

Philip Murray of the Steel Workers Organizing Committee and vice-president of the United Mine Workers of America presented the C. I. O. side of the argument. He assembled delegates. He especially condemned the A. F. of L. for "its lack of policy toward the organization of the unorganized American workers." George Berry, C. I. O. supporting Inter. President of the Printing Pressmen's union, and U. S. Senator from Tennessee, seems to be laying low; he did state in answer to questions the union would continue, in some instances, to employ newspaper hand-carriers; but had no intention of taking in clerical, office, and advertising workers.

"The War on Another Front" The hundreds of delegates of the American Federation of Government Employees, also A. F. of L., were thrown into an uproar at their Philadelphia convention when a delegate representing the U. S. foresters section got up and made a plea for unity. He stated in part: "The federal employes now have 70,000 members in their union; our organization has 25,000, and a third has 10,000. It is wrong for the government employes to have three organizations. We need one. Labor must unite."

By the time he had finished his talk the delegates were decidedly restless but when he objected to the one cent special A. F. of L. per capita assessment to fight the C. I. O. the motion picture "The War on Another Front" was shown and was charged by the president of the union with making remarks concerning derogatory close to violating the constitution. Finally the chair ruled the discussion closed and the revolt subsided.

CLEVELAND  
440 NOTES

"When the ballots were counted from the various shops at the last I. W. U. 440 meeting, it was found that the Nametick had been elected branch secretary. He took office September 19.

"We've busy these days" promoting the motion picture "Fury Over Spain"

Every member should see this thrilling historical account in talking pictures (English version) of the events in Spain for the last eighteen months. Bring your friends along to see this fight of union men and women, giving their lives in order that unionism and democracy shall not be destroyed in Spain.

It's in the ballroom, Public Auditorium, Friday, September 24. Two shows, 7 and 9 p. m. Adults 40 cents; children 15 cents. Unless there is a very large crowd, seven or eight tickets can be accepted at 9, and 9 o'clock tickets can be accepted at seven.

When the handling advance sale of tickets, please settle your account by the night of the 24th, for we have to settle our business with this motion picture at that time too.

Many thanks to those outside our organization who have aided in making a success of the benefit presentation of this picture—the MESA in particular, and also the various CIO and AFL unions, and the Socialist Party.

We had some motion pictures last Tuesday at the American Stove meeting. "Smiley" Seremak took them, and he didn't seem to mind the role of "candid cameraman" at all. After giving some of our fellows who were taken unawares by the movie camera, we're inclined to believe that this must be the answer to Bobby Burns' plea:

"O' wad some power the gifte gie us To see ourselves as ather see us!"

Too bad that more weren't there to see themselves in the movie!

Fellow Worker Seremak also showed his favorite film of a mongoose killing a snake. Some of the boys there seemed to think that the snake appeared to be the best of the lot. Walter Darve, minister of agriculture, warned the people they must conserve more, deeming it not enough that some women are already bloated from starvation. Hitler told women to raise more children. "Be your selves," he told them.

At Independent Register a new suggestion by the union is the arrangement that nobody will be in for less than half a day. Getting up in the morning and traveling to work for less time than that is a good union. The boys there are pleased to derive the benefits of unionism at American Stove without belonging to the union. Some day "Smiley" may have a picture of a man with a policy on his forehead for somebody to turn it around for him before he walks through—and that would be a bit more like these fellows.

At Independent Register a new suggestion by the union is the arrangement that nobody will be in for less than half a day. Getting up in the morning and traveling to work for less time than that is a good union. The boys there are pleased to derive the benefits of unionism at American Stove without belonging to the union. Some day "Smiley" may have a picture of a man with a policy on his forehead for somebody to turn it around for him before he walks through—and that would be a bit more like these fellows.

At Ohio Foundry new hours go into effect this week in an effort to get three eight hour shifts packed into 24 hours. The committee felt like this was the answer to the problem, so that there could be lunch time for each shift left over. The girls (who largely make the bedding on the top of the beds for washing machines) have set their minds on a very good spot for fixing up a lunch room for themselves, provided they can get it fixed up right.

Many inquiries come into the office asking where Frank and Tor Gebelwald live. Tor is over in Milwaukee helping make I. W. U. 440 a bigger and better organization, and Frank is up in Detroit.

At the various shop branch meetings, attention is being called to the case of Mike Lindway, framed victim of the National Secret Strike. This good union man is in Columbus penitentiary until labor gets him out. It looks as though we will have to appeal the case to the Supreme Court of the United States again, and to cover the large expenses of the fight already carried on in the courts to smash this frame-up, we are asking our members to place a 50 cent voluntary Mike Lindway assessment in their books. Your shop delegates are busy, so ask them for the stamp instead of waiting for them to ask you to get one.

AKRON—The United Rubber Workers was chosen as collective bargaining agency by Goodyear rubber workers by a vote of 8,000 to 5,000. Union officials were disappointed because the victory wasn't bigger.

LOOKING THE STRUCK OVER

International Signs of Concern to Labor

The British Isles—England and France have sent about 150 warships into the Mediterranean in accordance with the Nyon agreement to destroy submarines raiding shipping in that sea.

Ten youths, shipped from Ireland to Scotland to pick potatoes, were burned to death when the barrel they were packed in which they were asleep burned to the ground.

A coal miners' strike threat in Wales was settled at the last moment when non-union men were brought in to the fold.

The government was called a meeting of airplane manufacturers and demanded that they build and equip big airplanes, airliners to beat the U. S. types. Over 100 members of the Royal Air Force have died in plane wrecks so far this year, breaking all previous records.

Germany—Hitler and Mussolini will meet in Berlin with Mussolini will be Marshal Badoglio, who made such a good record against Ethiopian blood.

Hitler told them they are a generation brought up not for sunshine but for stormy days. In the next breath he mentioned his desire for universal peace. Hitler told women to raise more children. "Be your selves," he told them.

Hjalmar Schaché is through as Reichsbank president, it is said. It represents economic views divergent from the Nazi views.

The protestant clergy held a secret meeting in Germany, deciding to continue in opposition to the State in its efforts to keep the policy of Hitler.

Walter Darve, minister of agriculture, warned the people they must conserve more, deeming it not enough that some women are already bloated from starvation. Hitler told women to raise more children. "Be your selves," he told them.

Russia, whose delegate is ever ready to denounce more and more in conflict with the Nyon accord, and thinks the Fascists are rebuffed. The possibility of a military link between Japan and Italy has Russia worried. Officialism is scared stiff of spies.

Famous Surgeon To Aid Loyalist Spain. SAN FRANCISCO—Dr. Leo Eloesser, well-known San Francisco surgeon, who was recently called in to consultation when Tom Mooney fell ill in San Quentin, is giving up his practice and going to Spain to establish a field hospital for the loyalist forces. Before going he will endeavor to raise \$50,000 for the proposed hospital from Pacific coast physicians.

THROW AWAY YOUR BLACKJACK Under the Daic Carnegie method, you win your way by charm, tact and thoughtfulness, like always remembering the other guy's name.

Wenatchee Valley Apple Harvest On. OGANGHAM, Wash.—Apple pickers all start off September 20, that is, color picking starts then; the picking will be on full blast by October 1, and will last until November 1 or later.

At the various shop branch meetings, attention is being called to the case of Mike Lindway, framed victim of the National Secret Strike. This good union man is in Columbus penitentiary until labor gets him out. It looks as though we will have to appeal the case to the Supreme Court of the United States again, and to cover the large expenses of the fight already carried on in the courts to smash this frame-up, we are asking our members to place a 50 cent voluntary Mike Lindway assessment in their books. Your shop delegates are busy, so ask them for the stamp instead of waiting for them to ask you to get one.

Cleveland Steel Strike Continues

CLEVELAND—More than 1,500 workers are still out of work. Corigan-McKiney after four months and they're staying out," declared a CIO strike leader here recently while making an appeal for help in providing material relief to the strikers. He stated that besides the 1,500 still out at the Corigan-McKiney plant, 2,000 others are striking at the three other Republic steel plants in the city.

one man calling it a "psycho" industry lags behind the rest. Harold Dennis will be the first newspaperman to get in bed. He says people in the world must be taught how to live. Dennis says that the parents and Dennis both say that the youth of the country brought up in a materialistic environment are the backbone of Stalin's power.

The plans now being extended into all ranks of life is expected to help Stalin win the votes of the people in the coming election. The Communist commissar in Moscow, V. K. Kuznetsov, minister of justice. He did not "justice" and got injustice. Spanish like a page out of the French revolution.

Headquarters of two employer organizations in France were bombed and the law was drafted against them. The anarchists were blamed for the blast.

Police raided a left-wing publication named La Libre Parole, in Paris, ostensibly because of a press campaign against French universities with the Spanish insurgent forces.

In Geneva, Haile Selassie told the League of Nations assembly that Ethiopia is still actively resisting Italy's army of occupation.

Another war knot by and Japanese forces have gone forward but little. According to some reports Japan is already worried. Two battleships have been sunk and thousands of her best troops are dead.

A typhoon lashed the Japanese coast, leaving millions of hands dead and devastating crops in a total loss.

In China the situation is still worse, for the fighting is done on Chinese soil. Some estimates have China losing almost 100,000 men in the war already. As usual the strongest get the help of others and the weakest can do or die. U. S. peace efforts are helping Japan and weakening China, although without a doubt the sympathies of Americans are with China.

The crew of a British ship struck in Hong Kong, although still in cargo of coal to Japan if not paid.

TAKE JOBS WITH  
GRAIN OF SALT

When you sweat you lose a great deal of body salt which your system cannot spare. In steel mills, foundries or at stokers' furnaces this saline loss a serious proportion. Prostration or sometimes death can result. The remedy is to replace the salt as soon as possible. Dr. Lyall A. Stroud, chief of the Bethlehem Steel Corp.'s medical service, prescribes capsules containing seven grains of common salt and three grains of iodine. Bracketed bottles of these capsules are placed in different parts of the mill and the workers make use of them when needed.

Before this machine was installed at the mills the average number of heat prostrations annually was over 400. During the past summer not one case was reported. Workers elsewhere have been using this iodine heat can use salt in beer, salted gumdrops.

Fire-lamp and marsh gas are the chief troublemakers in the production of explosions in mine depths. In these gases combine with air in certain proportions they form peroxides and formaldehydes, which are then ready for reaction when a spark comes along. Dr. Bernard Lewis of the Bureau of Mines announced before the meeting of the American Chemical Society at Rochester that a method of preventing these explosions had been evolved. It consists of "poisoning," that is, neutralizing the dangerous vapors with organic bromides or iodides. A small quantity of the volatile chemical will maintain an entire mine in jeopardy is that the remedies are themselves somewhat poisonous, but it is expected that more innocuous chemicals now being tested will prove equally effective.

"Contacts" Don't Feed Workers; They Strike

NEW YORK—Ungrateful for their employment; provided "a fine opportunity to make contacts," eight service employees of the Nat. Deacons Club here struck in protest over a dismissal and demanded wage increases and shorter hours. Mortimer M. Kelly, club manager, termed the strike a "tremendous mistake."

more. At least two squads of Chinese G.I.s have volunteered to bomb Japanese naval stations and other concentrations regardless of the consequences.

The former mayor of St. Louis, Mo., was arrested on conviction of conspiracy with the late revolt against the government.

The military situation in the Czechs were created by Poles in their effort, who once fought a duel with Hitler and in Mexico, Agnes de Maza was arrested. Former Russian Socialist, 57 years old at his death.

American woman who struck on the freighter Agnes at Montevideo, Uruguay, were threatened with iron by both the local coast and the ship's captain. The woman called off the dogs.

Chilean Fascists are forming a new militia, which is using arms and equipment to train with.

In spite of a general amnesty, Federico Paez de Escobedo declared that as long as he is the chief executive the exiled leaders of the Revolutionary Vanguard, Colonel Luis Alba and former president Velasco Ibarra will not be allowed to return to the country.

President Cardenas of Mexico admonished workers for a "lack of discipline" and for too much "strife" against American oil companies. A striking too much it seems that the workers are protesting against the oil companies.

In Puerto Rico eleven nationalists are on trial for their lives, charged with complicity in a plot to overthrow the government of the United States in Puerto Rico. The defendants contend that no such plot existed; but that the nationalists wanted independence for Puerto Rico, this to be achieved by peaceful means.

A beer strike in the latest thing. In Marle, Bav., a little mining town in Austria, the people struck against the high price of beer, already winning a decrease in the price of draught beer, but still continuing against the price of bottled beer.

Mooney Greets Ala. Frame-up Victim

BIRMINGHAM, Ala. (PP)—A Committee to Free John Catchings, "Birmingham's Tom Mooney" and a victim of Tom Girdler's Republic Steel Co., has been established at 1030 Woodward Bldg. here, with Rev. Jack Edgar as chairman. Catchings, a member of the Intl. Union of Mine, Mill and Smelter Workers, is serving a 526-day sentence on the usual thronedraught charges. From San Quentin prison, Mooney recently sent greetings to his fellow-prisoner.

INCIDENTALLY "DEAD END"

Incidentally "Dead End" motion picture adaptation of the stage play of that name by Sidney Kingsley, of great interest to union men and women.

Sylvia Sidney, the feminine lead in the role of a rank and file striker who fills paper into her shoe so she can continue walking the picket line despite the jeers of some of her alum party and neighbors. One of the good scenes of the picture occurs when the neighborhood cap seeks some information about a scrape young slum kids have gotten into. Miss Sidney, with proletarian contempt, tells the policeman in effect to go plumb to hell; that she would never be caught helping out a cop. When Miss Sidney bares her usually charming forehead and shows the copper whose one of his ugly mate had just that day clubbed her on the picket line, every good union man witnessing this picture is ready to curse lustily all the cops in Christendom.

In its broader aspect the picture returns a compelling indictment against poverty, rather than, incidentally, character as the breaker of crime. An excellent picture to see with very little wrong with it when one considers its Hollywood source. T. C.

COULD

NEWARK, N. J. Saturday, Sept. 26. Industrial Workers of the World at 594 Market street. One free bingo. Admission 25 cents, wardrobe included.

Friday, October 1st. Open Forum at the I. W. U. Hall, 224 Park St. and thereafter every Friday evening. Prominent speakers on all subjects. Refreshments and sandwiches for relaxation and recreation. Come one! Come all!

PHILADELPHIA Saturday, October 9, 9 P. M.: Spoiled Super and Get Together at the I. W. U. Hall, 452 S. Third St. Admission 35 cents.

CHICAGO Saturday, Sept. 25. Entertainment and dance celebrating the opening of the season at the I. W. U. Hall, 2419 Lincoln ave. A live act will. The Age of Discant will be given. Door opens at 7:30 p.m. Admission 25 cents.

THE EVIL FRUITS OF FASCISM

Fascism, the breeder of rags, blind, double crosses, etc., is manufactured and utilized in countries such as Germany, Italy, and Russia. Whether they call it Nazism as in Germany, Fascism, in Italy, or Bolshevism, as in Russia, it is centralized bureaucratic tyranny from the top down on the subject class, known as the producing class. In Germany, Italy, and Russia, these countries are trained in schools etc. to be genuine rats and spies to squeal upon their parents and nearest relatives who are opposed to those who want to destroy unionism, to find a poetical, regretful of one of the millions of cases of the effects of this perversion. It's from the New Ark Evening News of September 1.

In Russia, a boy was awarded a poor working class parents was rigged up with a new suit, a pair of shoes, etc. for squealing in school against Hitler. The father was executed several months later. The kid was put in an orphan's home, not even realizing in his innocence that he had ratified on his parents.

In Germany, a boy was awarded a two week vacation for denouncing his father to the communist commissars. In Italy they put Santa Clara by giving the children cheap presents from the communists on their parents. A nice civilization.

So man it man is so unjust. I hardly know, which one to trust I trustd man, to say tomorrow. So pay today, and I'll trust tomorrow.

Join the I. W. U. to end all classes, abolish the class system which is the root of all our ills. Here's the poem: With a daddy's doggie. What a darling little fellow! What a perfect, upright son. Full of noble resolutions. Putting duty over fun! When the daddy's ever movement, When communism's old and hot! And then warmly recommending He be taken out and shot!

Ab, how sweet he'll be, when you're falling here and falling there. And your career, child's laughter ringing always everywhere! With an energetic younger stop, Taking down a few bad statements And reporting to the cops!

Romping to the school each morning. Coming home now on the run; For you must keep tabs on poppers. There is dark work to be done; Climbing on his lap and smiling. As he tells you this and that. And reporting to the cops— Ah, delightful little brat!

Taking note of his opinions. As he spins a little tale, For resting, he'll close. "I must get the man jail!" Pleading, "Popper, let another! In a childish voice so sweet, With your daddy unsuspecting. That you're turning on the heat.

Listening through long-drawn evenings. To the thoughts your daddy holds; Making careful note of every viewpoint he unfolds. Then off to the Secret Service! (With a lousy little guy!) With the data, is a spy! That your father is a spy!

What about your dear old mummy? You must soon turn her in, too! You're a faithful young Leninist. With her hands, she's ever there. You'll get two weeks at boys camp. There to play, and shout, and dance.

Blessings on thee, charming, off! An evil kick in the pants! An evil kick in the pants!

Strike to Eliminate Kickback Graft Ends

NEW YORK—An agreement between District Council 9 of the Brotherhood of Painters, Decorators and Paperhangers and the Master Painters Assn., providing for a 7-hour day, \$10.50 per day wage scale and a shop steward system to eliminate the kickback racket, was expected to be approved by 15,000 painters in Manhattan and the Bronx. This seemed to be the outcome of a strike which practically wiped up all painting and decorating work here since Aug. 25. A settlement affecting approximately half of some 2,500 painters in Brooklyn who have also been out on strike was announced.

How to be happy though in prison: Learn how to influence people, get a parole and go to work for Ford.

THE WORLD AS IT IS MATTER OF MATURITY

"So you're a wobbly," she said to me with a pleasant smile, and then with a sudden wave of her hand...

"Why," I asked her, "do you say that?"

"Oh, just so! The wobbles today are mostly disgruntled and never do you hear a good word about them."

My friend is a militant radical—so she labels herself.

Capitalist propaganda has even found fertile soil in the minds of radicals. Yes, the wobbles are hated, despised, and seldom do you hear a good word about them.

Hated by the powers-that-be. Persecuted by the upholders of the status-quo. Loved by the down- trodden masses.

The C.I.O. may speak of industrial unions, it may be organizing the mass industries, but because its very founding principles, identity in- terests between labor and capital and because of its hierarchy in organization...

The C.I.O. speaks of "peace." One is reminded of the words of Patrick Henry at the Continental Assembly in 1776. "Men may speak of peace, but there is no peace."

It is necessary, therefore, that these meetings have active, physical support of our fellow workers, for these people are real Red Fascists.

Indicative of the temper of the gathering was the busting up of Pres. John Shelly of the San Francisco Labor Council and a companion, John Byrnes of the San Francisco bakery district.

A proposal that the longshore- stevedores fight over warehousemen be settled by Pres. Roosevelt was made by George Kidwell of the San Francisco bakery district.

Bill Jack was convicted of first degree murder and sentenced to 20 years for manslaughter. The argu- ment began when one of the Bledsoes asked pay for some grass seed.
